Accelerating Emergency Response

Gamewell
FCI FIRE CONTROL INSTRUMENTS

by Honeywell

In an emergency, decisions need to be made to protect life and property.

Where will you find the information to base them on?

Whether you manage a multi-building college campus, a high-rise office tower, a 500-bed hospital, or a global chemical firm with plants and offices around the world, Gamewell-FCI's FocalPoint® Graphic Workstation offers real-time, accurate fire protection information about your facility – right at your fingertips.
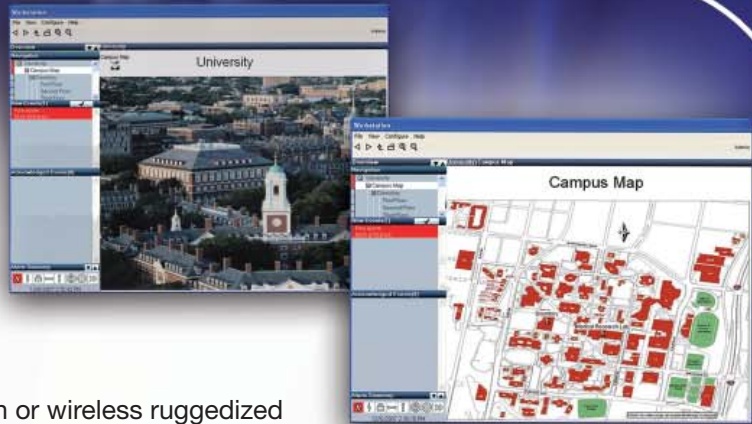

FocalPoint simplifies and centralizes fire panel monitoring and control, providing quick, reliable intelligence for sound life safety decisionmaking. This means facility managers can react more rapidly to ensure that emergencies are quickly contained and damage minimized.

Using the Microsoft Windows® 7 operating system, all the information needed to assess an emergency situation is presented in an easy to use, intuitive interface. The result? A superior decision-making tool that helps first responders formulate their plan of attack – and execute it successfully.

"view critical information wherever you are, whenever you need it"

With Gamewell-FCI's breakthrough FocalPoint Mobile, fire system monitoring can be moved from the control room to virtually any location offering flexibility and the best vantage point to manage the scene. Both the FocalPoint Graphic Workstation and the unrivaled FocalPoint Mobile give you confidence to assess complex emergency situations quickly, saving property and most importantly, saving lives.

A Clear View From the Top

- Information displayed on a fixed workstation or wireless ruggedized mobile tablet PC

- Touchscreen monitor and tablet PC

- Cascading screens – provide full view and drill down display of event locations

- Automatic screen navigation – locates and zooms to the exact location of the event

- Prioritizes events – user automatically taken to the location of highest priority

- Information labels – identifies hazardous material locations, handicapped accessible areas, and more, using fully linked multimedia

FocalPoint Monitors from Across the Street – or Around the World

FocalPoint shows how events progress and highlights locations of emergency equipment, hazardous materials, etc. Using TCP/IP connectivity, FocalPoint can link sites across the globe, supporting an unlimited number of users without distance limitations.

The ability to evaluate an alarm or trouble condition rapidly is paramount to maintaining steady operations. FocalPoint helps even the smallest medical facility keep critical service uninterrupted. The power of FocalPoint comes from its ability to oversee multiple buildings spread out over miles of campus.

Remote Monitoring and Control You Can Depend On

- Remote site monitoring – link multimedia (text, audio, video, and graphic files) to any device

- Important fire alarm functions: Acknowledge, Reset, Silence, Enable/Disable*

- Takes the guesswork out of maintenance, personnel can take corrective action to minimize false alarms

- Create custom icons - quick and easy access for controlling the functions of the entire alarm system

- Security profiles allow you to control the level of access given to each system user

- Compatible with a variety of fire alarm control panels

With over 150 years experience in fire alarm technology, and our commitment to engineering the most technologically advanced fire safety systems available, decision makers worldwide select Gamewell-FCI products to safe guard their buildings, people and property.
